SPECIAL BARGAIN... Some lucky Torrance area citizen will solve his transportation problems with this sporty phaeton being offered for sale this week at Paul's Chevrolet, 1640 Cabrillo Ave. For details, see today's Torrance Herald classified section.

William Floyd to Get Discharge from Army

Corporal William F. Floyd, an office machine repairman with the 573rd QM Office Machines Repair Depot, will receive his separation from the United States Army this week at the Quartermaster Training Command, Fort Lee, Va.

The son of Mrs. A. Floyd, 1728 Martina Ave., he attended Torrance High School and was employed as a sewing machine repairman for the Howard Zink Corp. of Long Beach.

International Woman's Club to Hold Dance

The International Woman's Club will hold a benefit dance next Saturday, Mar. 21, at the Elks Club on N. Nose Ave. in Compton.

Dancing will begin at 8 p.m. to the music of Frank James and his orchestra. All proceeds from the affair will go to finance an Easter party for club members.

Further information may be obtained by calling Mrs. Trudel Klinkenberg at Torrance 3069-J.

... National

(Continued from Page 1) particular field by your company, but the high standard of business ethics displayed in dealing with the Government.

"The review of these contracts was highly commendatory of your organization and it is my desire to pass this commendation on to you, together with my personal appreciation of your efforts and accomplishments in improving the quality and reducing costs for Ordnance items used by our Armed Services."

Col. Richard J. Crane, commanding officer of Watervliet Arsenal, New York, also praised the production record achieved by National Supply.

National Supply is now working on Army Ordnance contracts valued at \$3,800,000 for the production of gun forgings and breech rings. The firm also achieved an outstanding production record in World War II when it won five Army-Navy "E" awards.

... New School

(Continued from Page 1) for teachers was becoming more intense because other districts were beginning their recruiting programs earlier this year — just as Torrance has done for several years.

Also presented to the Board at the meeting was a display of hobbies being cultivated by students of the Torrance Elementary School.

Principal Robert E. Morton introduced Mrs. Lois C. Christensen, a seventh grade teacher at the school, who described the exhibits which had been placed in the district's conference room. Included in the display of hobbies on display were framed oil paintings, model airplanes, fancy needlework, coin and stamp collections, and textile paintings.

... Water Hike

bring the total cost of Dominguez water to nine cents per 100 cubic feet, or \$9.20 per acre foot, said President Louis De Martini Jr., a considerable jump over the \$3 to \$20 per acre foot charged in other areas of the county.

De Martini pointed out that in view of a 15 per cent drop in farm prices since the peak of spring, 1951, an increase in water rates, if granted, will force most small operators to go out of business.

"Los Angeles county needs produce raised by the more than 200 farmers in the Dominguez area," De Martini continued, "and could ill afford to lose the \$5,000,000 worth of truck crops and \$3,000,000 worth of flowers raised in that area annually."

Adult Brush-up Classes Offered During Drive

Local firms and businessmen frequently call on the Torrance School of Adult Education to furnish trained students. It was revealed this week by Mack Landar, the shorthand and typing instructor at the evening school. The local office of the California Department of Employment refers job applicants to the school to brush up on typing and shorthand before sending them out on jobs.

"Certificates are issued for typing and shorthand speed, and many employers accept these without giving further tests," Landar stated.

Instruction is also given in office machines, business English, spelling, filing, and office practice. All courses are free and students may enter any of the classes at any time. Typing classes are held Monday, Wednesday and Thursday evenings from 6:15 to 9:15 in room 205. Shorthand, Tuesday evenings 6:15 to 9:15, and business machines at the same time on Thursday evenings, both in room 201 of the Torrance High School.
